SUMMARY

Backend Software Engineer at Carhartt with experience building REST APIs, ETL processes, and data integrations for e-commerce and supply-chain systems. Skilled in Python, Django, Django REST Framework, Django Ninja, PostgreSQL, Snowflake, SAP, Salesforce, Azure, Docker, and Terraform. Experienced with scheduled jobs, bulk data updates, automated testing, CI/CD, performance improvement, and production support. I work in an Agile team and take part in sprint planning, stand-ups, code reviews, and cross-team collaboration.

TECHNICAL SKILLS

Python | Java | C++ | C | C# | SQL | JavaScript | TypeScript | Django | Django REST Framework | Django Ninja | Spring Boot | Spring Security | Spring Cloud | Node.js | Express.js | .NET | React.js | Angular | Tailwind CSS | HTML | CSS | REST APIs | JWT Authentication | PostgreSQL | MySQL | MongoDB | Microsoft SQL Server | Snowflake | Spring Data JPA | Git | GitHub | GitHub Actions | Docker | Terraform | Azure | AWS | Firebase | CI/CD Pipelines | Agile | Scrum | Visual Studio Code | Eclipse | JetBrains IDEs

EXPERIENCE

Software Engineer

Oct 2025 - Present

Carhartt

Dearborn, MI

- Build and maintain backend services and REST APIs using Python, Django, Django REST Framework, and Django Ninja for e-commerce, order visibility, and supply-chain systems.
- Develop ETL workflows, scheduled jobs, data backfills, and bulk upsert processes to move and synchronize data across SAP S/4HANA, SAP Commerce Cloud, Snowflake, PostgreSQL, and Salesforce.
- Design database models, write complex SQL queries, improve API and database performance, and troubleshoot data synchronization, time-zone, and production issues.
- Write automated tests, support CI/CD pipelines, and use Docker and Terraform to create consistent environments and manage cloud infrastructure in Azure.
- Work in an Agile team through sprint planning, daily stand-ups, code reviews, testing, production support, and collaboration with developers and business teams.

Software Engineer Intern

Sep 2024 - Dec 2024

CareConnect

Detroit, MI

- Collaborated with cross-functional teams to design and implement integrated front-end and back-end features, ensuring scalable application performance and efficient user experience.
- Developed a feature connecting users with professionals, enabling peer-to-peer communication.
- Integrated databases, REST APIs, and full-stack frameworks to optimize performance.
- Managed and optimized databases using SQL, improving data retrieval efficiency and enabling smooth interaction between web applications and backend data storage.
- Utilized JavaScript, Django, React.js, and Git to deliver robust, maintainable, and scalable software solutions

PROJECTS

AI-Study-Assistant | [GitHub Link](#)

- Developed an AI-powered study platform that generates flashcards, quizzes, and content summaries using OpenAI GPT-4o API.
- Built a Firebase backend with Realtime Database, Authentication, and Cloud Functions for secure, seamless user access.
- Integrated voice input and real-time collaboration features, enhancing interactivity and overall user experience.

GroceryPro - Smart Grocery Price Finder | [GitHub Link](#)

- Built a full-stack web application enabling users to compare real-time grocery prices, create lists, and track cost trends across stores.
- Developed REST APIs with Django and PostgreSQL, integrating Selenium-based web scraping to gather and update product data.
- Collected and maintained 3,000+ product records with 95% accuracy, enhancing data reliability and user decision-making efficiency.

EDUCATION

Bachelor of Science, Computer Science, Wayne State University

Graduation : 2025

- GPA: 3.97
- Summa Cum Laude
- Relevant Courses: Data Structures and Algorithms, Computer Architecture, Database Management, Software Engineering, Linear Algebra, Operating Systems, Theoretical Computation, Capstone Project, Artificial Intelligence.

CERTIFICATIONS

Software Engineer | Java Certificate of Completion

July 2025 - Sep 2025

ElevateMe Bootcamp

150+ hours of hands-on coursework, having completed a Software Engineer project using HTML, CSS, Tailwind, JavaScript and TypeScript

Python OOP: Object-Oriented Programming from Beginner to Pro

January 2026

Udemy

Credential ID: UC-dcba3724-facc-4283-85db-3a42cec2e4e8

LEADERSHIP & VOLUNTEERING

Served as Lead Instructor for the DACEP Summer Camp at Wayne State University

Jun 2023 – Jul 2023

- Collaborated with camp staff through regular meetings to share updates and improve program delivery.
- Helped design and implement curriculum by creating lesson plans and organizing aligned activities.
